ABOUT US

With over a decade of experience in the cleaning chemical industry, we have a wealth of reliable expertise and experience to provide you with a wide range of high quality, environmentally friendly and extremely cost effective cleaning products. We distribute throughout the UK and export our products around the world, as well as fulfil contract orders and orders from the public sector.

We specialise in using our extensive knowledge to give you the precise product and service that you require, and are able to tailor our service to meet your needs. We constantly update product formulas and work on many projects for various clients' particular needs, whilst also working with hundreds of small businesses in the trade and retail sector.

You can count on helpful and reliable advice and expert product information, as well as new innovative products. As a bespoke chemical company that outsources its manufacturing and laboratory arm, we can concentrate on delivering exactly what you need.

If you would like any more information or you would like to discuss specific requirements please give us a call on **0114 278 0222** or visit our website www.skychemicals.co.uk

Many of our products have BS EN certificates. These products have been specially formulated to meet performance, compatibility and environmental requirements. If you require a product with extensive EN testing, please get in touch.
